

## BACKGROUND COLORS

Jo Sonja's Background Colors are specially formulated to provide one coat coverage on most surfaces. The formulation varies slightly from the palette colors as they include fillers to smooth out imperfections for ease in basecoating. Colors are independently tested and conform to ASTM lightfastness standards to ensure they will not fade over time. **Contents: 177ml**

**JOSONJA®**

**ARTISTS COLORS**

**250 ML**

Jo Sonja's Artists' Colors are flow formula acrylics offering the opacity of color and the beautiful, velvet matte finish associated with traditional gouache plus superb handling and brushing characteristics. Unlike gouache, they are water-resistant and will not chip or crack when cured. Made from the finest quality pure pigments, the colors will remain vibrant and true for generations. They are safe, water based and clean up easily with soap and water.

# IRIDESCENT - 60 ML

These beautiful micaceous-based colors are for artists who wish to add a touch of glamour or glitter to a piece, such as the translucent glow of an angel's wings, a butterfly, a fish or the brilliant iridescent shimmer on a mallard drake's neck. Simply mix the iridescent colors directly into your paints or apply after decorating to highlight specific areas. The choice is yours.

# WOODSTAIN GEL - 60 ML

Jo Sonja's Wood Stain Gels are manufactured using transparent pigments to lightly color the surface without the 'milking or hazing' associated with the use of opaque colors. These colors and their performance may be modified by mixing with other gels and/or used in combination with Jo Sonja's Artist Colors and Mediums. Use for staining, color glazing, antiquing or for faux finishes such as Faux Bois, Burl or Vinegar Graining techniques.

## MEDIUMS BASIC

### Tannin sealer

Tannin Sealer has excellent adhesive and sealing properties. Use on wood or masonry surfaces where tannin, oil or pitch may bleed through paint. Also use to adhere gold leaf.

237 ml.  
593704

60 ml.  
58604

### Clear Glazing medium

Clear Glaze Medium is a matte transparent acrylic glazing medium with several different uses. Use alone or in conjunction with Chroma's Jo Sonja Artists' and Background Colors.

237 ml.  
583708

60 ml.  
58608

### Flow medium

Flow Medium is added to Chroma's Jo Sonja Artists' and Background Colors and other Chroma's Jo Sonja Mediums for thinning as needed for paint application or various techniques such as fine detail or linework and airbrushing.

237 ml.  
583707

60 ml.  
58607

### Retarder medium

Retarder Medium is an additive to extend the 'open' or drying time of Chroma's Jo Sonja Artists' Colors or Mediums. It may be used as both a painting medium and for various techniques such as antiquing.

237 ml.  
583703

60 ml.  
58603

## MEDIUMS CRACKLE

### Crackle medium

Chroma's Jo Sonja Crackle Medium is a transparent medium, which causes Chroma's Jo Sonja Artists' & Background Colors to separate into fine cracked or crackled patterns in a one step process. Use to simulate the effects of aging.

237 ml.  
583710

60 ml.  
58608

## MEDIUMS OPAL DUST

### Opal Dust medium

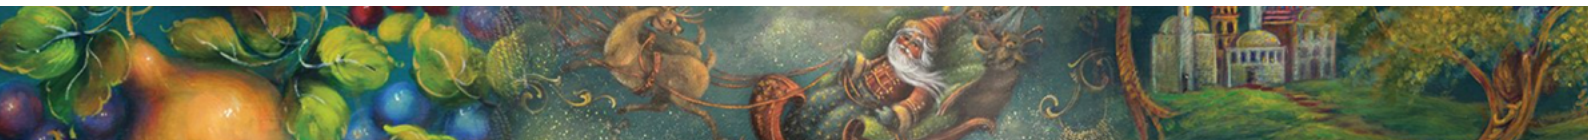

This clear gel containing tiny light reflecting, holographic particles creates an interplay of colors reminiscent of rare gems. Use alone or with Chroma's Jo Sonja Artists' Colors to create glitter effects on most surfaces without yellowing.

237 ml.  
72100

60 ml.  
72090

## MEDIUMS SPECIAL EFFECTS

### Gel Retarder

Gel Retarder delays the drying time of Chroma's Jo Sonja Artists' Colors without reducing the viscosity of the paint.

237 ml.  
593741

60 ml.  
58741

### Magic Mix

This light sealer is similar to Clear Glaze Medium but contains an extender for a longer 'open' or blending time. Magic Mix dries matte, lightly sealing each layer to prevent lifting with application of additional layers.

237 ml.  
593770

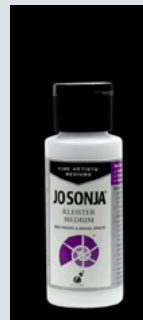

60 ml.  
59771

### Kleister medium

This semi-transparent medium is added to paint to provide extra body for textural patterns for Faux Finishes such as Faux Bois or Wood Graining techniques. It provides transparency to the paint and extends its drying time.

237 ml.  
593093

60 ml.  
58609

## VARNISH

### Decoupage vernis

Decoupage Varnish is a heavy-bodied version of Gloss Varnish for artists who wish to finish their projects with a thick, lacquer-like coating.

237 ml.  
583723

### Set Speciality Mediums

Contains one each,  
2 oz bottles:

- All purpose sealer
- Flow
- Retarder
- Crackle
- Décor crackle
- Kleister

6 x 60 ml.  
51759

## MEDIUMS SPECIAL USE

### Textile medium

Textile Medium allows permanent non-fading painting on natural and non-synthetic fabric. It is only necessary if the fabric to be decorated is to be laundered or dry cleaned.

237 ml.  
593705

60 ml.  
58605

### Glass&Tile medium

Glass and Tile Medium can be added to Chroma's Jo Sonja Artists' Colors to make them suitable for painting on glass, glazed ceramics and enamel. It should be used in conjunction with Glass and Tile Primer if items cannot be cured in the oven.

Glass&Tile A  
593720

Glas&Tile B  
593721

### Brush Care/Brush Soap/Brush Cleaner

For cleaning and keep in good shape of your brushes.

60 ml.  
58715
